

MANAGEMENT POLICY

At **Ima Mai S.A.U.**, a leading company in the manufacture of packaging machines, we have established the following as Environmental and Quality Policy:

- Follow the trends of the national and international market regarding the needs and demands of our products and services.
- Comply with the requirements that would have been agreed with our clients and other interested parties.
- Always meet the expectations of our customers and when possible, exceed them.
- Comply with the legal and regulatory requirements associated with the product and the Company's environmental performance.
- Safeguard the sustainable resources, preventing and controlling negative environmental impacts and/or producing their decrease to acceptable limits.
- Educate and train people who interact in and with the organization on the need for environmental protection, spreading the environmental culture and the importance of the preservation of the environment.

This is accomplished by:

- Providing products and services that will meet the specified requirements.
- Planning and improving continuously the internal processes based on the needs of our clients and the market.
- Providing cutting-edge technology to the products, from design to the production.
- Achieving the participation and integration of all personnel by providing preventive and corrective measures and a continuous educational and training program.
- Improving continuously the environmental strategies at the development of the product, as well as preventing contamination.
- Keeping and improving the Integrated Management System following the requirements of ISO 9001 and ISO 14001 standards, in a way that helps thus helping optimize the performance of the organization.
- Complying with the corresponding environmental regulations and other commitments to which it would adhere.
- Motivating clients and suppliers to adhere to Management Systems.

The Policy and its elements are published disclosed and understood throughout the Company. This policy is the reflection of a work system applied by **Ima Mai S.A.U.**, marking a path in the world market.

The Policy is revised whenever it is considered necessary, for it to be constantly adequate to the objectives established in **Ima Mai S.A.U.**

Guillermo Mai
Vice president
